

Indiana University Job Order Contracting Vendor Outreach Meeting

In preparation for an upcoming Job Order Contracting (JOC) opportunity, Indiana University and Gordian would like to invite you to attend the JOC Informational Meeting where we'll inform contractors on how the University intends on using this contracting method for construction, give an overview of JOC and the benefits to contractors to participate.

Job Order Contracting (JOC) is an indefinite delivery, indefinite quantity (IDIQ) construction procurement process that allows many projects to be completed through a competitively awarded contract. This single-solicitation process enables projects to start faster and creates partnerships between project owners and awarded contractors.

Contract Opportunities for the Following:

- General Construction
- Roofing
- Paving
- Electrical
- Mechanical
- Concrete
- Landscaping

Interested in learning more?

Please join us to learn more at one of the scheduled Informational Meetings via ZOOM.
