Addendum #4

Project: Jacobs School of Music - Musical Arts Center Theatrical Systems –
Dimmers and Lights - Design and Installation

Date: April 30, 2026

This Addendum, issued prior to bidding, alters, amends, corrects, or clarifies the Request for Proposal Documents to the extent stated herein and does thereby become a part of the Request for Proposal Documents, and will become part of the Contract Documents of the successful bidder. Acknowledge receipt of this Addendum in the space provided on the Bid Form. Failure to do so may subject the Bidder to disqualification.

ITEMS INCLUDED IN THIS ADDENDUM

Additional Mandatory Pre-Bid Meeting

A second mandatory pre-bid meeting was held on Friday, April 17, 2026, at 10:00 AM. Please see the attached list of attendees.

Questions and Answers

1. If existing electrical/data raceways and pathways is accessible and appropriate for the revised design, can it be retained and used?

Yes, our general plan for making use of current equipment locations is to benefit the ability to make use of existing pathways. We are aware that in some cases that might not be possible either for reasons of new design, access, or code requirements, but otherwise if there is viable infrastructure, we are eager to see available pathways put to use.

2. Must the new dimmers live in the original dimmer room? Can they live in the grid or elsewhere in the design?

Presently the document seeks for making use of the existing dimmer room for the reason mentioned above. However, a proposal may recommend alternate locations, especially if the design allows for better function and/or cost savings. Vendors should provide a quote for the current request to retain the present location as well as their recommended alternate locations and quote.

Subcontractors

Each bid shall include a complete list of proposed subcontractors and suppliers.
